

## HYDROCARBON PRODUCTS (Cont.)

### DE-OX-ID

Solventless, light oil based contact treatment compound with active ingredients to counteract oxidation. Lowers contact resistance, inhibits arcing, lubricates and protects against corrosion. For use on connectors, sockets, potentiometers, switch contacts, battery connections, telescoping antennas, relay and thermostat contacts. Should be applied sparingly (e.g. with a toothpick or a hypodermic needle injector) on dirty, dusty and heavily oxidized contacts. Precleaning with a solvent type cleaner is recommended. Best results are obtained with small amounts.

Part No. 19-1902 2 oz. Bottle

### DE-OX-ID CONTACT Cleaner Lube Spray

Ultra-pure, designed to clean, protect, lubricate and improve conductivity on all metal connectors and contacts. A one-step cleaner and lubricant. Removes corrosion grease, oil, and other contaminants from electronic and mechanical parts. Penetrates quickly and displaces moisture, leaving a protective lubricant for moving parts. Safe on most plastics. Recommended for Stereos, Potentiometers, Tuners, PC boards, TVs, Rheostats, A/V mixers, VCRs, Copy machines, Gears, Computers, Laser printers, Connectors, Switches, Automation Equipment, Motors, Fax machines, Camcorders, Cash Registers, Projectors, Vacuums, Cameras, Sewing machines, Locks, Tools, Nuts, Valves, Transmissions, Metering devices, etc.

Part No. 19-1907 4 oz. Aerosol
